by LENS PEN

faqs

Designed to clean fingerprints on  
iPads • Tablets

Q. Are LensePen products safe for my lenses, displays and screens?

A. LensePen's anti-owen reactonable probe LensePen is safe for lenses, anti-owen reactonable displays and screens. The probe does not heat the tip, from contamination, and does not like moisture which can cause lens and other coatings to be damaged.

Q. How many cleaning can my LensePen perform?

A. Lab tests have shown that a LensePen can remove 500 fingerprints with its ultrasonic probe. The number of cleaning cycles your equipment may vary depending upon the size of your area of display, and the amount and type of contamination.

Q. Will LensePen affect the warranty on my device?

A. Yes, we have LensePen cleaning equipment that is approved by the manufacturer.

Q. Is LensePen safe for my device?

A. Yes, we have LensePen cleaning equipment that is approved by the manufacturer.
